Under the corporate philosophy of *“We contribute to the development of society through providing high-quality products and services.”* our company has continuously taken on challenges to address social issues and create new value. Through businesses such as “Raised Floor Systems,” which enhance building functionality; “Structural Products” and “Seismic isolation & vibration control Device,” which ensure building safety; and “Seismic Reinforcement,” which supports the longevity of building structures, we have leveraged the technologies and expertise cultivated over many years to secure leading positions in multiple markets.

Effective today, Senqcia Corporation has become a subsidiary of Noritsu Koki Co., Ltd., marking a significant step toward accelerating growth as part of the Group’s “New Domain” business initiative—designed to establish a new pillar of innovation and expansion. Building on decades of technological expertise and the trust of our valued partners, we will actively contribute to realizing Noritsu Koki’s Vision:

“A business group that continuously creates No.1 and Only1.”

Our efforts will align with the Group’s Mid-Term Management Plan (FY30), ensuring sustainable growth and value creation for all stakeholders.

As we embark on this new chapter, we remain committed to exceeding expectations and driving continuous evolution. We sincerely appreciate your ongoing support and guidance, and we look forward to working together toward an even brighter future.
